Protecting What Matters Nationwide

Screening over 450 million unique criminal records annually, we protect businesses nationwide.

What We Offer

At Bchex we do more than just background screening. We provide a variety of products that can be bundled and easily accessed through our technology, AEGIS.

Secure Volunteer

Raved and utilized by school systems, you can easily manage and screen volunteers. Our system extends the data entry to the Volunteers and provides verified credentials.

Occupational Health Services

We offer a full suite to support the logistics of physical exams and medical assessment needs. Organizations can auto manage DOT cards renewals/expiration dates and monitor the entire drug testing procedure.

Policy Managment

Using client provided parameters we pre-mark applicants as "Meets" your guidelines or "Corporate Review." This service is great for large organizations & staffing firms.

Integrations

Bchex has partnered with many integration platforms including companies like Vibe, Taleo, Oracle, SuccessFactor, Applitrack (Frontline) and more!

Secure Applicant

Customized for you & utilized for businesses who need a background screen approved verification card. Our platform gives applicants the option to self-pay for all their services or split pay with the organization.

Sex Offender Monitoring

With this monitoring tool you will be notified immediately if any applicant or an active employee is added on the National Sex Offender Registry database.

Applicant Express

Quickly gain personal information for your potential new hires by easily initiating a link through your AEGIS account. Electronic forms are sent off, and the process is completed by the applicant.

Driving Records

Our screening provides records for all 50 states plus Washington DC at a minimum of 3 years.

Bundling Benefits:

Our pricing is among the lowest in the industry without compromising quality.
You can bundle any of our services to maximize and streamline all your needs.

★ Couple volunteer management with your screening or systematize all your occupational health services.
